MARKET LETTER.

Special Correspondence.
Kansas City, Mo., Jan. 13.—Fed steers broke 15 to 25 cents last week, presumably on account of too large a supply of them, but really because too many were centered at Chicago Monday and Wednesday, thereby giving buyers at all points an excuse to bid lower. The week closed strong, but with a net loss as indicated above. Cows and heifers sold strong all week, and gained a little; stockers and feeders about steady. As usual, most of the branded stuff was fed steers, which sold at \$4.00 to \$5.00. Some steers fed at \$4.00 to \$5.00. Some Texas steers, fed nearby here, sold at \$5.00, 1400 pounds. The top natives sold at \$5.50, and sales above \$5.00 were scattered. Fat Oklahoma heifers sold at \$4.00, and cows at \$3.40. Range stockers and feeders ranged from \$2.50 to \$2.85, the latter price for 550 pounds. Panhandles. Supply today is 5,000 cattle, market strong to 10 cents higher, in spite of the fact that Chicago has another big Monday run of \$2,000, and lower prices. Buyers had the same excuse today as last Monday for bidding lower, but there was too much competition, showing that market is healthy and indicating strong future prices.

The short number of sheep and lambs on feed in this territory is being felt in the reduced supplies. Run last week 15,500 head, about three-fourths of the same week last year, and not enough for the demand. The first really good lambs of the season came in today, and sold quickly at \$7.40. They were 80 pound lambs from Monte Vista, Colorado. Other lambs from same place today sold at \$7.00 to \$7.35, 68 to 73 pounds. The best yearlings last week sold at \$6.50, western wethers sold at \$5.50 today, ewes bring \$4.50 to \$5.00. The opening of the Nelson Morris packing plant here last week has added 15 per cent to the buying force here, for all classes of live stock.
